## Viatec Surface Mounted Tactile Paving

As Viatec tactile paving is surface mounted, making its installation faster and simpler than with paving slabs. This minimises cost and pedestrian safety risks involved. Available in five surfaces, our tactile paving range is:

- Quick and easy to install
- Removes the need for excavation and heavy-duty plant
- Requires less man-power
- Minimises need for traffic management and pedestrian disruption
- Bonds to existing surfaces (concrete, tarmac, bitumen, marble and ceramic)
- Specially formulated adhesive
- Outperforms concrete: on Skid Resistance Value (SRV) and durability (7x more durable)
- Conforms to DDA 2005 and DETR guidelines
- Freeze thaw tested and UV tested for colour-fade
- Complete range of 'warning' surfaces available for all applications
- Available in 400 x 400mm with 10 'tiles' per pack
