

## Viatec UK Resisto posts

A self-correcting bollard which lends itself to exposed locations with increased need for bollard replacement. Resisto posts are designed to withstand impact from all vehicles, travelling from any direction.

Manufactured from UV stabilised polyethylene our Resisto's require no maintenance, are resistant to corrosion and entirely recyclable. Available in black or white with or without single or triple reflective banding, the unique base design ensures that each Resisto is securely anchored once concreted into the desired location.

### Dimensions:

- Height: 1.4m (of which 1m is above ground and 0.4m falls below ground)
- Reflective banding single strip: UK Class 1 Red / White 150mm deep
- Reflective banding triple strip: 3 x UK Class 1 Red / White 20mm deep bands
